

Gastrolyzer®

To aid in the detection of gastrointestinal disorders, one breath at a time.

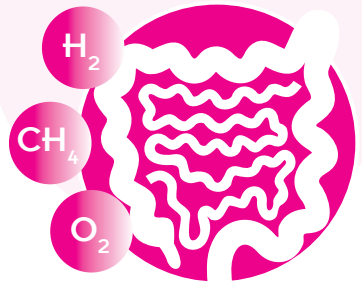

The **Gastrolyzer®** range of portable breath hydrogen and methane devices are used in Gastroenterology to help:

Investigate functional gut conditions:

- Food intolerances
- SIBO
- IBS
- Gut Function

Beneficial diagnostic equipment for:

- Gastro departments
- GP's
- Private clinics
- Dietetic Services

Gastro¹[™]

Increase revenue for your clinic or department through reimbursement!

With the use of Hydrogen and Methane Breath Testing
